

3/3/2015

Southern Wells School Board Work Session Minutes

The meeting was called to order at 5:00 P. M. in the Board room. All Board members were in attendance along with the superintendent and HS principal Chad Yencer.

Aspects of the recent water study were discussed. It was apparent that the Board felt that at this point there were more questions than answers and they looked forward to a meeting with representatives from IDEM to offer guidance.

Several potential "summer" projects were discussed. It is clear to me that the Board is focused on getting as many of these projects completed as possible yet this summer.

These include, but not limited to:

- Athletic field fencing
- HS classroom lighting and flooring
- HS hallway lighting and flooring
- Parking lot repairs
- Exterior concrete work
- Exterior lighting
- Athletic scoreboard replacement
- HS student lockers
- El carpet replacement
- El water pressure tank replacement

There also was a brief discussion concerning a few components of the new support staff handbook that will have its first reading at the next scheduled Board meeting on March 10th.

The meeting was adjourned at 8:00 P. M.
